

VTH 85

TECHNOLOGY FOR A SUSTAINABLE TOMORROW

Shredding

APPLICATION

For use in the chipboard and paper industry for the creation of high quality wood chips, and in biomass power plants with extended ranges of capacity for the production of energy wood chips for thermal recovery.

DETAILS

		VTH 125/85/14	VTH 145/85/14
Infeed opening	mm	1250 x 850	1450 x 850
Infeed rollers	qty	14	14
Rotor diameter	mm	2000	2000
Number of tools	qty	3 - 4	3 - 4
Rotor speed	rpm	~ 300	~ 300
Chipping length	mm	20 - 40	20 - 40
Required motor power	kW	1000 - 1500	1000 - 1500
Capacity	stere/h	200 - 400 *	250 - 450 *
Weight approx.	kgs	50000	55000

Subject to technical changes without notice / Dated 09/2010

* Depending on input material and chipping length
